

COMPETENCE
EXPERIENCE
CONSULTING

CEC.group is the
reference point for
the **safety** and the
conformity of Your
products

MISSION

We support and assist our customers in the correct drafting and management of the technical file and in the CE marking process.

We provide consultancy to National Supervisory Authorities and to thousands of companies that request it.

We want to become the unique partner that allows You to improve the performance of your company through the compliant placing of your products on the market.

CEC.group: a reality to carry out the conformity and CE marking procedure of your products and for the implementation of ISO business processes.

**A PERSONALIZED
AND TAILORED
SERVICE FOR:**

COMMERCIAL OPERATOR

EUROPEAN MARKET

ADVICE ON THE CONFORMITY OF ALL PRODUCTS

Placing safe products on the market is certainly a lot, but it's not everything. European laws require that safety be demonstrated formally.

Drafting a technical file is always an obligation, only the relevant regulations and directives can be different.

CE MARKING

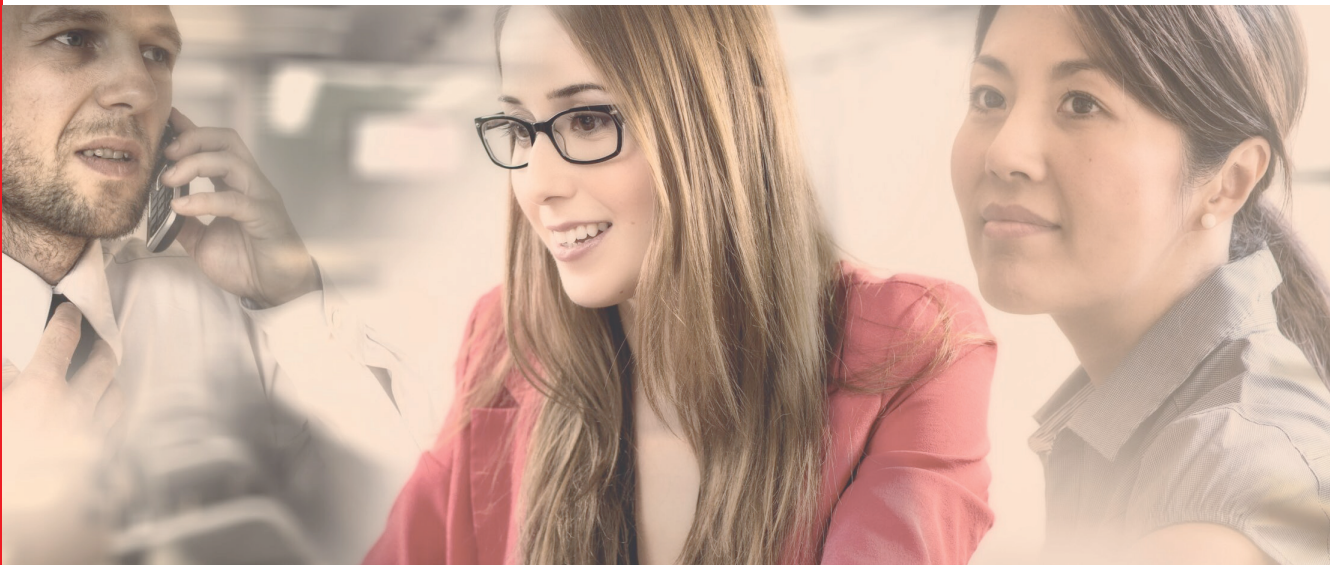

Within the large family of safe products there are those that have additional obligations, introduced by the laws on CE marking. We can define it as marked security, in other words communicated through the affixing of a synthetic and immediate mark.

We take You on the path of formal legality..

"NON" CE MARKING

Within the large family of safe products there are those that CANNOT be CE marked, because the laws do not allow it. These products are subject to a conformity procedure with Regulation (EU) 2023/988 which provides for the obligation to create the technical file.

We take You on the path of formal legality.

VERIFICATION OF DOCUMENTS AVAILABLE IN THE COMPANY

The certainty that your technical file complies with the law, as well as a duty, makes the difference between being calm and not. A documented evaluation of the technical file represents the difference between certain and uncertain.

We provide You with the tranquility of formal legality.

VERIFICATION OF DOCUMENTS ISSUED BY THE SUPPLIER

Often those who sell are more interested in the sale than in compliance with the law, passing the related problems onto the buyer. Purchasing calmly knowing that there is no shortage of essential documents and that it will be possible to comply with the law is a very important plus.

We provide You with the tranquility of formal legality.

CUSTOMISED CHECKLIST FOR IMPORT

To carry out an evaluation before deciding to import or purchase a product, an in-depth analysis is necessary. The check-list is a list of visual checks to be carried out on the product and analytical checks on the documentation which can avoid unpleasant surprises upon receipt of the goods.

We provide You with a verification document.

TECHNICAL FILE MANAGEMENT

Periodic documentation control is an obligation for medical devices, an opportunity for all other products. Our company can carry out this activity, relieving You of a specialist commitment for which you would have to allocate internal resources. The external consultant has a more objective and professional vision in managing the file.

We can support You.

ASSISTANCE AND TRAINING FOR THE “PERSON RESPONSIBLE FOR REGULATORY COPLIANCE”

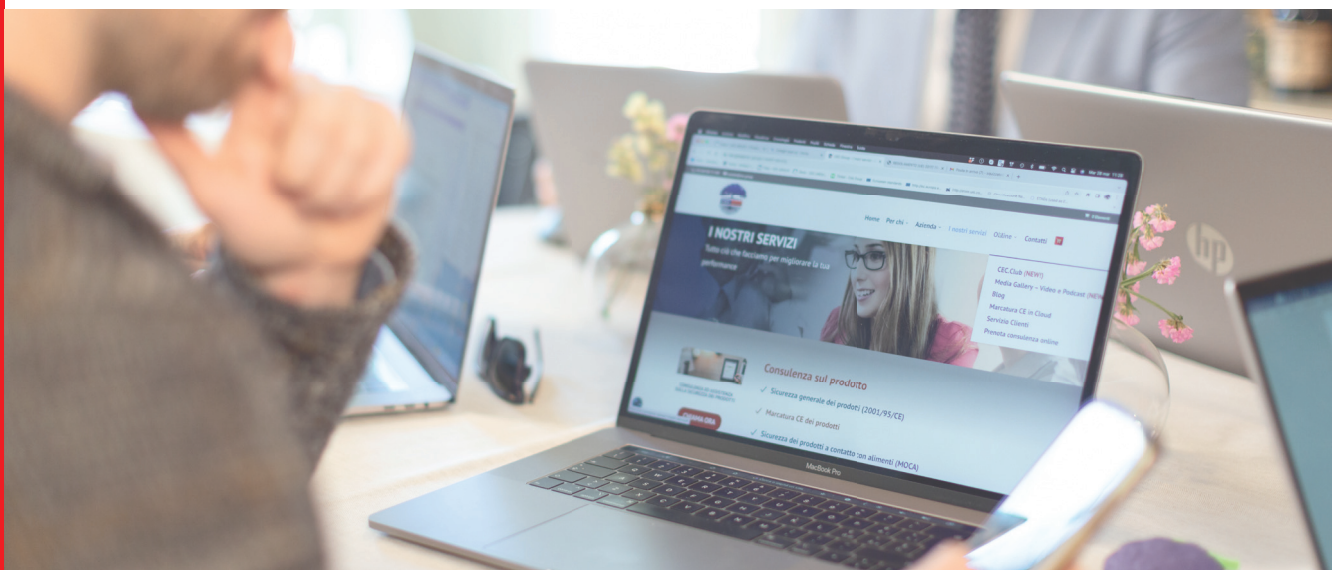

Supporting your “person responsible for regulatory compliance”, as required by Regulation (EU) 2017/745 on medical devices, is one of our services that will allow You to comply with the law and obtain the necessary training.

We can support You.

IMPLEMENTATION OF QUALITY MANAGEMENT SYSTEMS (ISO 9001, ISO 13485, ISO 14001 and more)

From the single procedure, up to the complete system, we can assist Your organization in the implementation of a quality management system, which must have the aim of improving company performance. A stamp on the letterhead means nothing if the economic results do not improve and if the ISO do not bring these results, they are simply useless time wasters.

Our goal is:
procedures to earn more, everything else doesn't count.

ONLINE SERVICES

Our consultancy and assistance can also be provided directly online.

TELEPHONE TICKET ONLINE CONSULTATION

We offer You the possibility of receiving quick answers from our experts, by telephone or other means of communication. This type of consultancy can be very useful for solving specific and specific problems, sometimes a confirmation or denial clarifies doubts that were blocking an entire process.

A small reply can have a big effect
